Profile

Undergraduate student in Software Engineering at Fudan University, interested in backend development and software engineering. Solid foundation in Java, Python, and C, with introductory Rust experience; seeking backend or software development internship opportunities.

Education

Fudan University / *College of Computer Science and Artificial Intelligence / Software Engineering*
2023.09 – Present

Projects

Xiaozhong Dianping

Course Project

Vue 3 / Java / Spring Boot / MySQL [k4if3ng/Xiaozhongdianping](#)

- Developed a local-lifestyle platform with user authentication, merchant search/filtering/sorting, merchant details, and group-buying packages.
- Implemented nested comments and replies, coupon issuance and redemption, invitation rewards, group-buying orders, and QR-code voucher workflows, covering the full journey from browsing and ordering to benefits management.
- Built the backend with Spring Boot, Spring Data JPA, and MySQL; used Spring Security + JWT for authentication and Vue 3 for the interactive frontend.

Enterprise Equipment Management System (MES)

Course Project

Java 21 / Spring Boot / Spring Data JPA / Thymeleaf / MySQL [k4if3ng/MES](#)

- Developed an equipment management system covering factories, equipment, equipment types, production lines, departments, and maintenance staff.
- Implemented the maintenance workflow from repair request and task assignment to repair record submission, production confirmation, and equipment release, with fault symptoms, fault codes, and multi-equipment fault items.
- Built management pages and business interfaces with Spring Boot MVC, JPA repositories, and Thymeleaf; persisted business data in MySQL and used Maven for project builds.

Technical Skills

Programming Languages: Java, Python, C; basic Rust

Backend & Databases: Spring Boot, Spring Data JPA, Spring Security, MySQL; basic JWT authentication

Frontend & Tools: Vue 3, Git, Maven, Vim, Conda; web application development and API integration

Awards

Yangpu District College Cybersecurity Competition / *Third Prize*
